

Skill Module Number:

6

Subject: Windows/ Mirrors

Objective:

At the conclusion of this module you will be able to explain the operation of the window/mirror functions.

Vehicle and tools required:

- 2002 M-Class with power seats with memory.

Required material:

- Owner's Manual
- 163 Model Year Book for 2002

Instructions:

1. Follow the instructions and answer the questions.
2. Ask your instructor if assistance is needed.
3. Stop at instructor checkpoints for sign-off.

1. Notice the new window switch location for 2002, then open the left window.
Does it have one touch down? _____
2. Close left front window. Does it have one touch closing? _____
3. Open and close a front window. During the closing of the window, carefully try to stop the glass from going up. Do the windows have pinch protection?

4. If the windows become de-normalized, how do you re-normalize them? _____

5. Try opening and closing the rear windows. Do the rear window operate like the front? _____
6. Using the rear window switches at the back of the center console, open and close the rear windows. Do you have one touch for both up and down? _____
7. Does an M-Class have the convenience remote opening and closing of the windows similar to a 210? _____
8. Do the outside mirrors now include turn indicators? _____
9. If you have seats with memory, can you now store the outside mirror positions? _____
10. Does the right side mirror have the parking position feature like a 210? _____
11. Can you personalize the mirror-parking feature? _____ If so, how? _____

12. Do the side mirrors have a one touch fold back feature? _____

If you have noticed any parts that need to be replaced on this vehicle, please inform your instructor now.
